(54) Title: A SPA BATH FITTING AND SPA BATH

(57) Abstract: A spa bath includes at least one spa jet fitting having a front face exposed to the interior of the bath cavity which does not protrude beyond the surface of the bath wall (B) around the spa fitting. Preferably at least a major portion of the front face of the fitting is substantially flush with the surrounding surface of the bath wall. A spa bath fitting includes a front part (2) including a wide diameter front face (1) which is exposed to the interior of the bath when the fitting is mounted in the side wall or base of a bath, a rear part (3) which is positioned on the rear side of the bath wall or base when the fitting is mounted in a bath and with which the front part is threadedly connected, and a back nut (4) mounted on the rear part for fixing the fitting in the bath wall or base.
